

## PrestaShop Marketplace Seller List

---

An eCommerce marketplace is generally a very big eCommerce website with multiple sellers and thousands of products. So, to help you search the sellers conveniently, the PrestaShop Marketplace Seller List module is here.

Seller listing available at one place is very beneficial for customers. This gives them the idea of total number of sellers operating on the store. It also provides them a chance to view the latest products offered by sellers.

In order to make the process easy, there is a series of alphabetical buttons to filter the results. This helps you to filter the sellers shop alphabetically.

**Note: PrestaShop Marketplace Seller List module is compatible with PrestaShop version 8.x.x.**

## Features Of The PrestaShop Marketplace Seller List Module

- View list of all the sellers of the shop at one place.
- Search the seller's store alphabetically.
- Filter results of stores by seller name, shop name or shop location.
- Click on the sellers store name to view the shop page of the seller.
- Add a description to show on the seller listing page.
- Sort the products on the basis of lowest price, highest price & alphabetically.

**NOTE:**

PrestaShop Marketplace Seller List module is MultiShop Compatible with PrestaShop Advanced Multi-Vendor Marketplace version 5.4.0/3.4.0 and above.

## How To Install The PrestaShop Marketplace Seller List Module

In order to install the module, you need to install the PrestaShop Advanced Multi-Vendor Marketplace module first.

After installing the marketplace module, you can now proceed to install the **PrestaShop Marketplace Seller List** module.

1. Firstly, Go to the Module Manager in Back office and click on 'upload a module'.
2. After that, Drag and drop the module file or select the file from the system.
3. In this way, the module installation will be successful.

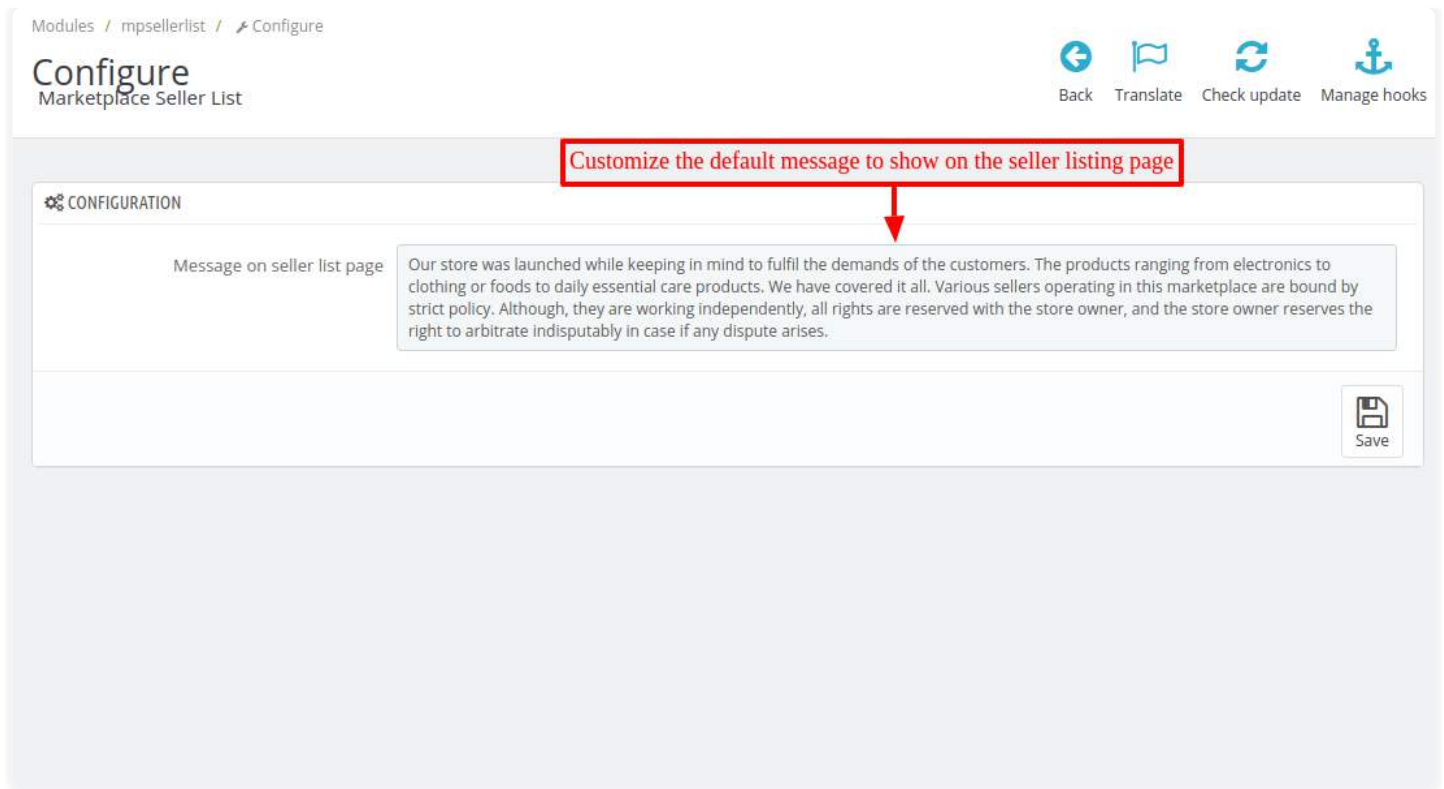

## How To Configure The PrestaShop Marketplace Seller List Module

After the successful installation of the module, an admin needs to configure the module.

In the configuration settings, there is only one option. This option offers you to customize the message that you want to show on the seller listing page.

In case, if you leave it blank, then no message will appear on the seller listing page.

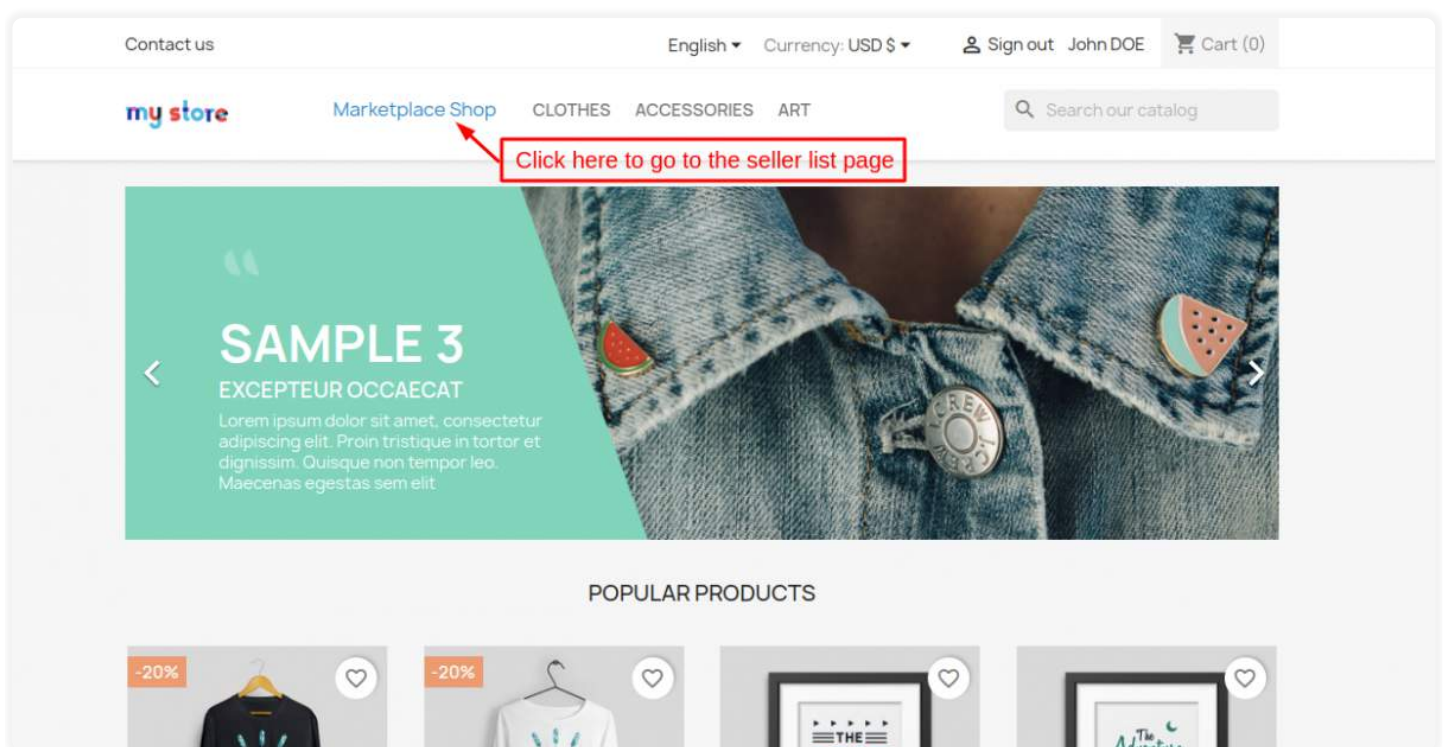

---

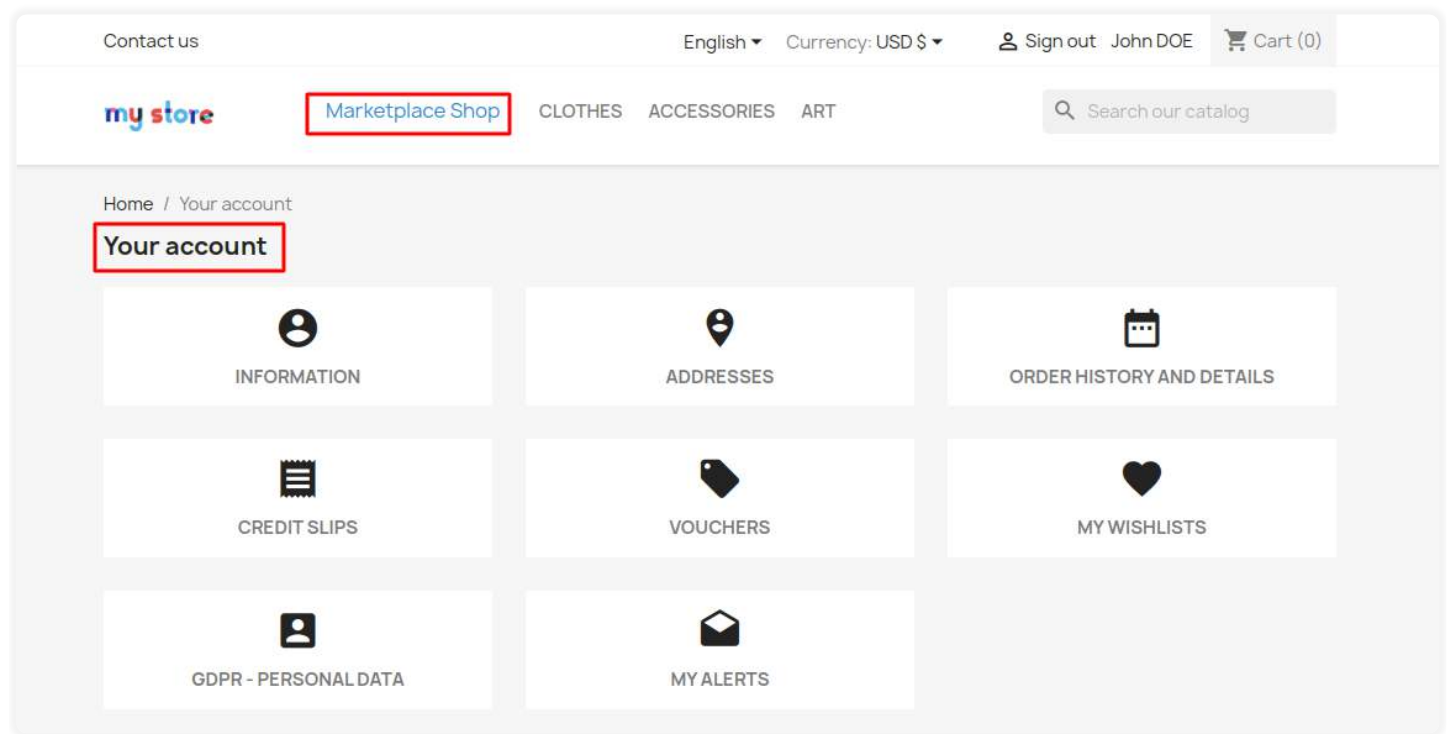

So, this was all about the process to configure the module. Now, let's proceed further.

## Workflow

On the front-end of the shop, a '**Marketplace Shop**' button will appear on all the pages. The button helps customers to navigate to the seller listing page.

## Marketplace shop button on “Your account” page

After clicking on the “**Marketplace Shop**” button, a customer will land on the seller listing page.

There is another button too i.e., the ‘**Go to Dashboard**’ button. On clicking this button, registered sellers will go to their own shop page. In case, if they are unregistered, then they will go to the “**my account**” page.

This page shows the list of all the sellers registered on the store as well the latest products they are offering. On clicking the “**View Shop**” button, a customer will go to the shop page of the seller.

## Marketplace

Our store was launched while keeping in mind to fulfil the demands of the customers. The products ranging from electronics to clothing or foods to daily essential care products. We have covered it all. Various sellers operating in this marketplace are bound by strict policy. Although, they are working independently, all rights are reserved with the store owner, and the store owner reserves the right to arbitrate indisputably in case if any dispute arises.

Click here to view all the products of sellers

Users can also view the complete list of all the registered sellers and their products using the “**View All Sellers**” and “**View All Products**” buttons.

## View All Sellers

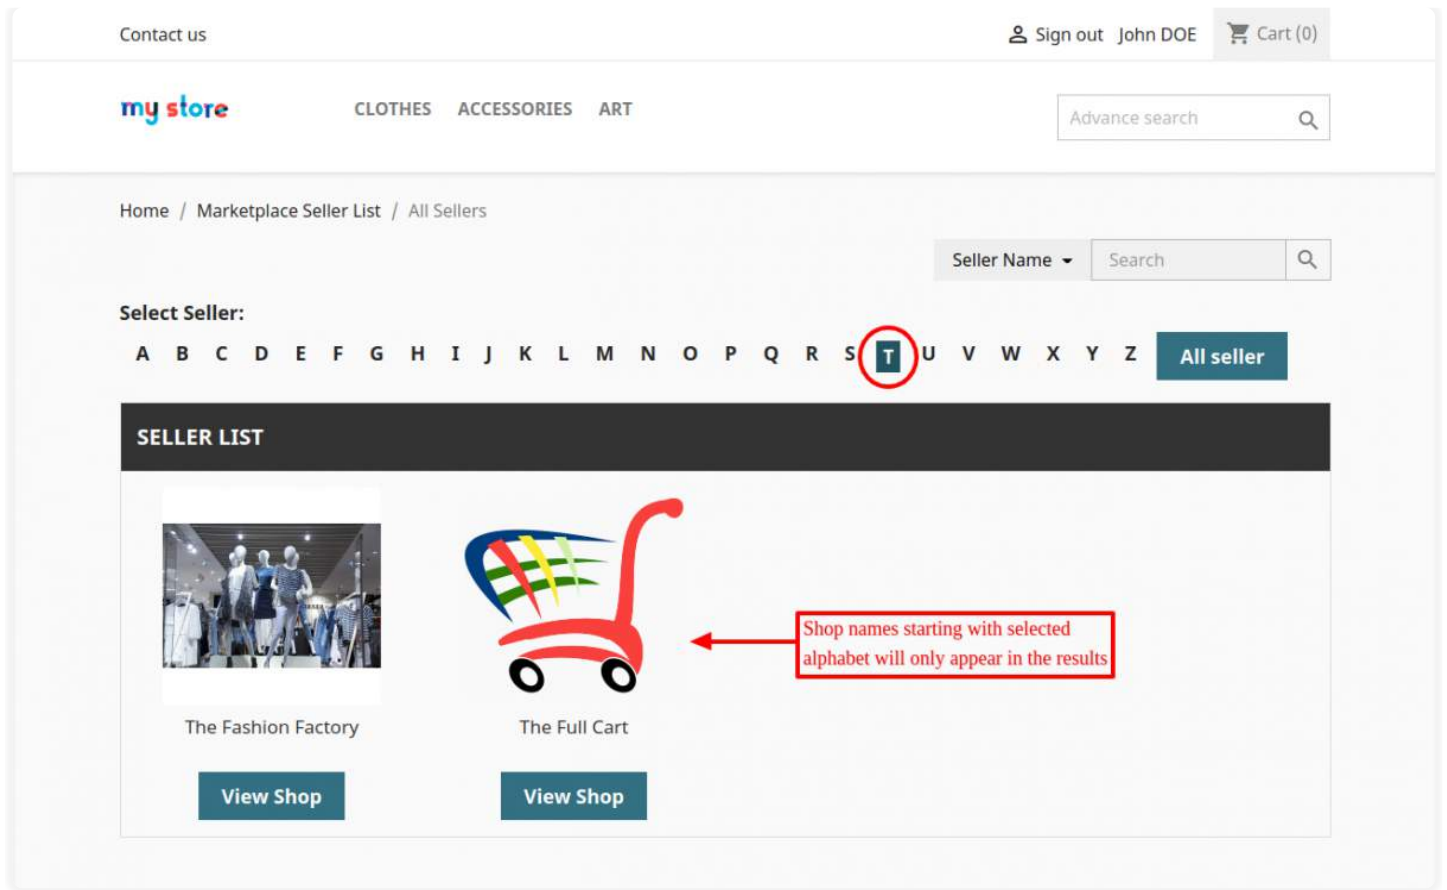

On clicking the “View All Sellers” button, a user will land on the page where a list of all the sellers is available. A customer can also filter the results alphabetically by clicking on any of the alphabet.

Click on any alphabet and all seller shops starting with that alphabet will appear in the search result.

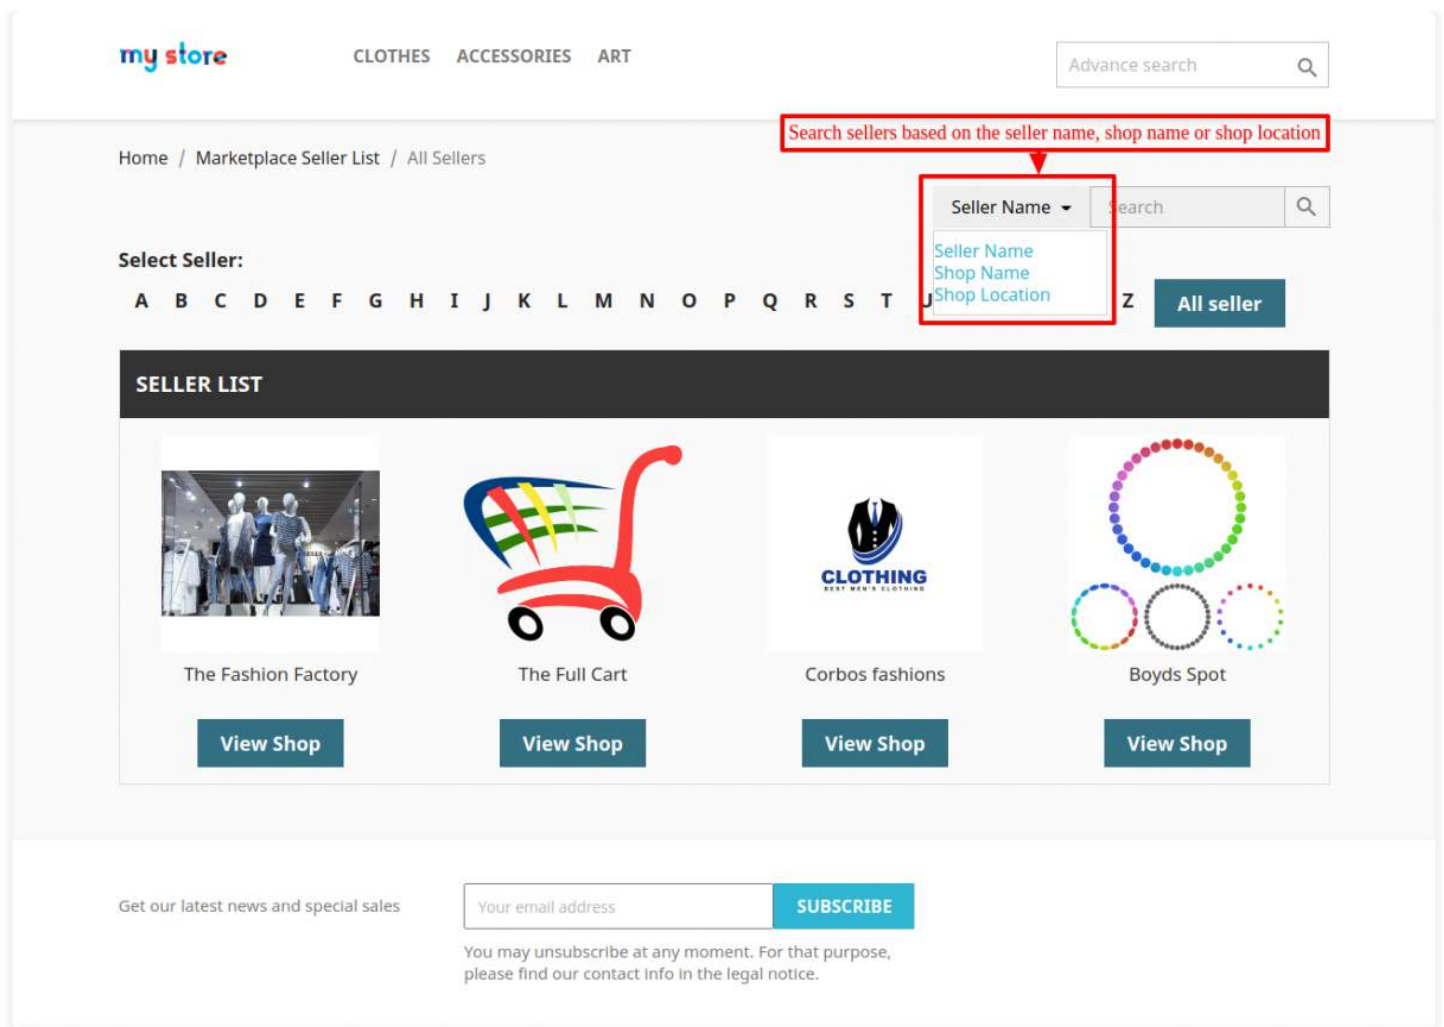

### Search result :

Like in the case below, a user selects the letter “**T**”. So, all the shop names starting with “**T**” is only appearing in the result.

On this page, users can also search by the seller name, shop name and by shop location. To do so, a user needs to select the search criteria from the drop-down and the results will appear based on the search criteria.

## View All Products

On clicking the “**View All Products**” button, a customer will land on the following page. Here, a customer can also sort the results based on various criteria. Those criteria are:

- Lowest Price
- Highest Price
- A To Z
- Z To A

So, this was all about the PrestaShop Marketplace Seller List module. I hope this document will help you in checking the functionality of the module in a better way.

Also, do let us know about your views in the comments.

**Current Product Version - 5.1.2**

**Supported Framework Version - 8.x.x, 1.7.x.x**
